# CURRENT PERFORMANCE | AMER

## \$18.9bn

**Est Addressable Spend**  
(Developed from IHG spend analysis & external data)

**63.9% of Total Spend**

## \$902m

**Spend via Programs**  
( 2025 programme spend)

**4.8% of Addressable Spend**

## \$TBC

**CRF Programs**  
(2025 CRF Data)

**TBC% IHG-influenced Spend**

## \$21.7m

**CRF Collection**  
(2025 CRF Data)

**2.4% of CRF Prog Spend**

### AMER Add. Spend & Programme Performance

#### OPERATE CARRIES THE PROGRAMME

Operate is 23% of AMER's addressable spend but 72% of programme spend (14.6% capture). Build is 47% of spend with only 0.2% on programme

#### THE US IS MATURE AND CONTESTED

The US holds the largest pool, but entrenched GPO competitors and FDD language that blocks auto-enrolment cap growth, even with more OHES effort

#### SMALL OWNERS ARE THE ENGINE

First-time and small-scaling owners are 74% of the estate; OHES lifted their F&B participation by 24% and 14%. Mexico and LAC remain under-covered

Source: F2F PLT August Fact Pack v1.0 (31 July 2026), pp. 29–30, 44; dim\_hotel extract (2025 programme spend, modelled addressable spend); AMER F2F regional input, Aug 2026, slides 20–24. CRF collected: 2025 actual per AMER 2030 opportunity slide.

# Regional Strategy Overview | AMER

## Regional Acceleration

### Priorities

- #1 US CMH estate (Operate: F&B / OS&E) – lift utilisation and compliance
- #2 US pipeline and renovations (Build / Open: FF&E / EME) – win earlier in the lifecycle
- #3 Mexico and priority LAC markets – selective expansion where coverage and distribution are viable
- Ambition: +\$546m programme capture by 2030 (4.6% → ~7% share)

### Approach

- Locked order guides beyond HIEX; P2P and utilisation reporting
- Compress FF&E design-to-delivery from 19 to 9.5 months; transform the waiver process
- Activate EME (energy, renewables, engineering) – \$163m by 2030
- Localise programmes, standards and distribution for Mexico / LAC; high-touch Premium and L&L offer

### Budget & Dependencies

- 2026 CRF budget \$21.0m; 2025 collected \$21.7m (2.4% yield)
- Accelerate adds ~\$13.1m CRF a year by 2030
- Needs design, waiver and category capacity; in-market sourcing and OHES for Mexico
- Risk: \$2.1m revenue shortfall YTD (distributor payments, outstanding H1 supplier data)

## Support for Central Enablement

- → Managed Estate: FDD reform to auto-enrolment / opt-out as AMER's enforcement lever
- → Commercial Engine: expand OHES from a US capability into the global owner-lifecycle model
- → Scaling with Partners: evaluate a GPO / distribution model for Operate
- → PaaS: differentiated offer for Premium, L&L and pre-opening needs

- Test FDD mandatory / opt-out language with Legal; locked order guides as the control
- Offer the FTO / small-scaling OHES playbook as the central segmentation template
- Assess GPO options inside the central partner framework – protect owner data, control and economics

- Step-change adds \$436m capture and ~\$10.5m CRF by 2030 (→ ~10% share)
- EC sponsorship and legal review for FDD reform
- Commercial, legal and financial assessment of GPO choices
- Central CRM, owner segmentation and utilisation insight

# FUTURE CAPABILITIES | AMER: what we need to deliver

**01**

## DATA & UTILISATION INSIGHT

Supplier and GPO data to test value and coverage; P2P, locked-order-guide and utilisation reporting

**04**

## LEGAL & PARTNER ASSESSMENT

Legal and EC support for FDD reform; commercial, legal and financial assessment of GPO choices

**02**

## OHES COMMERCIAL CAPABILITY

OHES capacity, owner segmentation, account management and evidence, extended to Mexico and LAC

**05**

## DISTRIBUTION & IN-MARKET SOURCING

Distribution design for F&B and OS&E  
In-market sourcing and OHES for Mexico and priority LAC

**03**

## BUILD / OPEN CATEGORY CAPACITY

Design, waiver and category capacity for EME and adjacent categories  
Turnkey support to cut FF&E delivery from 19 to 9.5 months

### HOW WE DELIVER

**Central capability, regional execution – AMER's OHES playbook as the global template.**

Phasing and ranges are directional stakes in the ground for discussion, not modelled forecasts. They assume the capability investments on the preceding pages are funded from 2027, and are not fully additive where initiatives overlap.

# EMEAA

# CURRENT PERFORMANCE | EMEAA

## \$5.5bn

### Est Addressable Spend

(Developed from IHG spend analysis & external data)

**47.0% of Total Spend**

## \$164m

### Spend via Programs

(2025 programme spend)

**3.0% of Addressable Spend**

## \$75m

### CRF Programs

(2025 CRF Data)

**TBC% IHG-influenced Spend**

## \$3.5m

### CRF Collection

(2025 CRF Data)

**2.1% of CRF Prog Spend**

## EMEAA Add. Spend & Programme Performance

### BUILD IS THE REAL GAP

Build is 48% of EMEAA's addressable spend but only 0.3% runs on programme. Operate, at 27% of spend, is where we already capture most (9.2%)

### OUR GROWTH IS SHIFTING EAST

On IHG pipeline-vs-base growth, India leads the estate with Thailand/Vietnam (and KSA — all best won at signing)

### SCALE IS CONSOLIDATING AGAINST US

Entegra acquired Prestige Purchasing UK (April 2026) and three conglomerates now control 25% of GPO spend — it hit our most mature market first, and their scale challenges the value we offer owners

Source: F2F PLT August Fact Pack v1.0 (31 July 2026), pp. 10, 19, 28–30, 32, 36, 45–47; dim\_hotel extract (2025 programme spend). CRF collected: 2025 actual per EMEAA 2030 opportunity slide (template showed \$2m — to confirm).

# Regional Strategy Overview | EMEAA

## Regional Acceleration

### Priorities

- KSA & IMEA (Build, FF&E, Operate): 1% of £0.92bn captured; largest pipeline
- SE Asia (Operate, F&B): 60% P2P coverage, managed-heavy – lowest friction
- India (Build, Open, Operate): high-growth pipeline, little programme presence
- UK&I / N. Europe: £1.47bn addressable, 92% franchised, <4% P2P

### Approach

- Procurement at HMA / franchise signing (KSA, SE Asia, India first) – Build capture 0.3% → ~4%
- Convert SE Asia P2P coverage into spend; open long-tail categories
- Develop local suppliers and Build pipeline visibility in India
- UK&I: deploy P2P and a franchise value proposition worth joining

### Budget & Dependencies

- 2026 CRF budget \$4.7m; 2025 collected \$3.5m (2.1% yield)
- Accelerate: +\$365m capture and +\$7.8m CRF by 2030
- KSA headcount or third-party coverage (KSA contractor \$0.3m in 2026)
- UK&I P2P needs a business case; FutureLog contingency required

## Support for Central Enablement

- → Managed Estate: pilot region (EAPAC, IMEA) – 37% of hotels, £1.21bn addressable
- → Commercial Engine: regional owner engagement and CRM; kill the 3% myth
- → Scaling with Partners: EMEAA as the GPO test case
- → ESM: fewer, deeper contracts ahead of the 27–28 renewals

- Run the central mandate pilot from Q2 27 with GM / DoO accountability and ManCo commitments
- Key-account coverage for institutional and sovereign-backed owners
- Restate the GPO case before scoping; Northern Europe the likely fit
- Move suppliers from compliance to growth partners

- Step-change: +\$92m capture and +\$2.0m CRF by 2030 (→ 9% share)
- M&A, commercial and legal diligence – external support
- Central CRM plus regional engagement leads
- Supplier golden record before consolidation benefits land

# FUTURE CAPABILITIES | EMEAA: what we need to deliver

**01**

## DATA & DIGITAL FOUNDATIONS

A single group Data Strategy, with Conexus and Athena, building one spend data lake to size the opportunity and target markets

**04**

## GOVERNANCE & SPEND OPTIMISATION

Spend Optimisation governance to convert scale into disciplined, measurable value

**02**

## OWNER CRM & SUPPLIER PLATFORM

A CRM for owner engagement plus supplier platform and Horizon risk capability to automate CRF and reporting. Improved Website and Value proposition messaging

**05**

## EARLY, STORY-LED ENGAGEMENT

Bring Procurement in at signing and tell the value story through Tell Our Story 2.0  
Improve OHES and Stakeholder visibility

**03**

## CATEGORY EXPERTISE

Increased focus on non F&B categories (higher-CRF)  
Improved supplier relationship management  
Strengthen commercial and influencing capabilities

## HOW WE DELIVER

**Enterprise thinking, regional deployment.**

Phasing and ranges are directional stakes in the ground for discussion, not modelled forecasts. They assume the capability investments on the preceding pages are funded from 2027, and are not fully additive where initiatives overlap.

# Greater China

# CURRENT PERFORMANCE | Greater China

## \$4.6bn

**Est Addressable Spend**  
(Developed from IHG spend analysis & external data)

**53.7% of Total Spend**

## \$93m

**Spend via Programs**  
( 2025 programme spend)

**2.0% of Addressable Spend**

## \$TBC

**CRF Programs**  
(2025 CRF Data)

**TBC% IHG-influenced Spend**

## \$1.9m

**CRF Collection**  
(2025 CRF Data)

**2.0% of CRF Prog Spend**

### GC Add. Spend & Programme Performance

#### CAPTURE IS HALF THE GLOBAL RATE

Only 2.0% of GC's \$4.6bn addressable spend runs on programme (global ~4%). Operate captures 3.7%, against 9.2% in EMEAA and 14.6% in AMER

#### BUILD IS THE PRIZE, BUT ACCESS IS BLOCKED

Build is 47% of spend at 0.5% capture. We lack POPD pipeline access, and peers run lead-constructor programmes IHG legally can't

#### OWNERS BUY ON PRICE AND PERCEPTION

Owners see central programmes as dearer and CRF as a hidden cost (the '10% myth'); long-tail F&B and Operate spend stays off-programme

Source: F2F PLT August Fact Pack v1.0 (31 July 2026), pp. 29–30, 48 (p. 29 GC programme panel repeats EMEAA's \$164m — corrected to \$93m per p. 30 and dim\_hotel); GC F2F regional input, Aug 2026, slides 3–7. CRF collected: 2025 actual per GC 2030 opportunity slide.

# Regional Strategy Overview | Greater China

## Regional Acceleration

### Priorities

- Standard products: drive OBSM adoption (CRF headroom \$0.08m)
- Lead constructors and digital solutions in Build (\$0.16m)
- Long-tail Operate products (\$0.11m) and F&B non-standard (\$0.45m)
- Develop a frozen-seafood supplier base

### Approach

- P2P adoption across managed hotels, especially Essentials; AI-led spend classification
- Use POPD for proactive OHE and procurement checkpoints; attend kick-off meetings
- Aggregator partnerships for long tail; DDP delivery via NGSC logistics partners
- Partner with design consultants to optimise the supplier base

### Budget & Dependencies

- 2026 CRF budget \$2.0m; 2025 collected \$1.9m
- Accelerate: +\$15–22m capture by 2030
- Needs OHE field resources, marketing packages and seafood market intelligence
- F&B non-standard needs distribution infrastructure that doesn't yet exist

## Support for Central Enablement

- → Managed Estate: AI-enforced compliance controls; Touchpoint programme
- → Commercial Engine: POPD–CRM integration, KOM tracking, Owner Link
- → Scaling with Partners: lead-constructor legal review; retail programme
- → PaaS: propositions by owner type (SOE, repeat private, first-time private)

- Platform integrated with POPD for non-retroactive waiver checks – the single most critical unlock
- Owner and hotel incentives to drive participation and compliance
- Retire the '10% myth' with coordinated central collateral

- Step-change: +\$63–122m capture by 2030; combined CRF uplift \$1.95–3.6m
- BRR and Legal support for lead-constructor and retail programmes
- Digital and AI investment; HLG POPD access
- 2026 spend: P2P data analytics \$0.1m; Asia supply-chain legal study \$0.2m
